Rasmussen Air & Gas Energy Promotes Cayd VanAckeren

(Waterloo, Neb., 05/30/18): Rasmussen Air & Gas Energy recently promoted Cayd VanAckeren to Centrifugal Service Coordinator. VanAckeren joined Rasmussen Air & Gas Energy two years ago. Prior to this appointment, he served as account manager in Rasmussen's central Illinois office.

In his new role as Centrifugal Service Coordinator, VanAckeren will work closely with RAGE's team of 15 field reliability technicians. Together, they will focus on ensuring customers have a superior service experience.

"Cayd exemplifies the Rasmussen service philosophy," said Larry Rasmussen, president and CEO. "He has a keen focus on our customers and their assets. He has an acute sense for ensuring projects are completed effectively and customer expectations are exceeded."

VanAckeren will relocate from the Chicago area to the company headquarters in Waterloo, Neb.

About Rasmussen Air & Gas Energy

Rasmussen Air & Gas Energy manufactures, rents, sells and repairs industrial air compressor systems and compressed gas equipment. RAGE offers complete solutions for the air and compressed gas industry providing everything from product sales to service and rental equipment. Based in Waterloo, Nebraska, RAGE offers nationwide support with satellite offices in Illinois, Kansas and Kentucky.
